

Add Devices

Sample device: light bulb.

1. In the app select the Menu button, then select “Devices.”
2. At the top, you will see the “Add Devices” button, select that.
3. Device categories will pop up, in this case we will select “Dimmers and lights.”
4. Your kit contains the Go Control Smart LED Light Bulb - LB60Z-1.
5. Select that device, then follow the onscreen instructions:
 - Screw in the bulb to your fixture.
 - Power on the bulb.
 - The bulb should flash twice, indicating it has connected.
 - You will then be prompted to name the bulb, try to name it something unique, such as “Kitchen Bulb”.
